#### WASHINGTON LETTER.

(From Our Regular Correspondent.)

The Philippine bill with variations is still the motif in elaboration of which the democratic senators continue to chant their weary dirges to the infinite ennui of the republicans and the country. During the past week senator Tillman took occasion to deliver one of his characteristic harangues full of defiance to any senator who should care to challenge the right of South Carolina to disfranchise the negro, etc. The republicans listened with amused tolerance while the democrats, to their credit be it said, left the senate chamber, evidently mortified at the vulgar extravagance of their colleague. On Thursday senator Carrick indulged in his third speech on the subject and was guilty of personalities which caused senator Hoar to call him to order but for which he subsequently apologized.

No new light has been thrown on the subject, but it is evident that the democrats are determined to prolong the debate interminably. On Friday senator Lodge attempted to have a day set for a vote on the bill, but was opposed by senator Dubois.

The senator from Massachusetts then gave notice that unless there were soon signs that the debate was being brought to a close he would insist that the senate remain in session for longer hours each day.

The speeches of senators Lodge, Beveridge and McComas, made early in the week, were able refutations of the democratic position. It is believed by the senator from Massachusetts that he will secure the passage of the bill about the first of the month.

The Committee of Relations with Cuba has about completed its investigations of the holdings of Cuban sugar by the sugar trust, and has satisfied itself that the trust will gain nothing by the passage of a reciprocal law governing Cuban trade with this country. Senator Platt tells me that he is confident that the senate will pass the straight reciprocal bill which his committee will report. The rapidly increasing anxiety of the members of the house to adjourn is believed to augur well for the fate of the bill when it reaches that body.

On Friday the house passed the bill admitting Oklahoma, Arizona, and New Mexico to statehood. The constitutional convention of New Mexico is empowered to change the name of the territory on its becoming a state if it so desires. The constitutional convention of Oklahoma is required to adopt a state enabling the Federal government to attach to the new state any part or all of the Indian Territory, at such time as it may see fit. The passage of the bill was marked by a dramatic incident which threatened to prove a tragedy. Delegate Marcus A. Smith of Arizona, on concluding an impassioned speech in favor of the bill, fell to the floor with a slight stroke of apoplexy. He is now, however, considered out of danger.

The strain under which Mr. Smith and his colleague, Mr. Rodey of New Mexico, have been working during the past week has been tremendous,

Mr. Flynn of Oklahoma, while he has worked equally hard, does not show the same evidence of his protracted labors. All the delegates express the belief that the bill will be favorably acted upon by the senate.

Friday afternoon in the house was devoted to clearing the pension calendar, and Saturday to the eulogies of Representative Rufus K. Polk of Pennsylvania, and the late Senator Kyle of South Dakota. Today the District of Columbia will have the "call," but it is probable that the bill of Representative Adams of Pennsylvania, which provides for the granting of passports to the residents of insular possessions of the United States will be passed. The Naval appropriation bill is expected to constitute the leading feature of this week's work in the house.

There appears to be a growing faction in the house which would like to see some action taken towards tariff revision, but those republicans who are so disposed will not press the matter at this late date. Speaking on this subject yesterday Representative Heatwole said, "It is a matter of grave regret to me to see the end of the session approaching with no step taken in the direction of tariff revision. I am no less of a protectionist today than I always was, but as a consistent protectionist, I know that tariff schedules require revision from time to time, as conditions change. The statesman who would recommend the passage of a tariff bill which had not been carefully and accurately adjusted to the industrial needs of the country would be laughed at. Now, no one can deny that those needs change, and logically the tariff schedules must be readjusted to meet the new conditions. For instance, the steel industry no longer requires protection, and the tariff on steel, having served its purpose and built up the industry, should be wiped out. It

has become worse than useless. The same is true of the tariff on lumber, wood-pulp and, to a great extent, of the tariff on glass.

"The friends of protection should face the issue and revise the tariff along progressive lines. Failure to do so is apt to produce a revolution of feeling on the part of the voters which might result in democratic gains, and one experience of tariff revision by the democrats has been quite sufficient to demonstrate how disastrous their legislation would prove to the country." In reply to a question, Mr. Heatwole said that, while the short session was not an auspicious time for tariff revision, he would labor earnestly for some modification of the existing schedules preparatory to general revision by the fifty-eighth congress.

One of the most imposing funerals which has occurred in Washington for many years was that of Rear-Admiral Sampson which took place on last Friday. The president, representatives of the supreme court, of both houses of congress, all the executive departments, and of practically every embassy and legation in the city gathered at the Church of the Covenant to do honor to the deceased admiral, and a large military escort accompanied the remains to their last resting place in Arlington cemetery. The usual discharge of rifles over the grave was omitted, and in lieu thereof a battery of the fourth artillery boomed outside the cemetery gates. The sounding of "taps" by the solitary bugler stationed at the head of the grave completed the funeral obsequies of the departed commander.

#### Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. N. Marsh, well-known attorney of Nocona, Texas, of his quantities of opium and other medicines with nothing helped me. As a drowning man grasps at a straw I grabbed at Kodol. I felt an improvement at once, and after a few bottles am sound and well!" Kodol is the only preparation which exactly reproduces the natural digestive juices, and consequently is the only one which digests any good food and cures any form of stomach trouble. Kerr's Pharmacy, Jackson.

**Ant Slaveholders.**

Many of the large red ants are slaveholders and, oddly enough, their slaves are invariably black, much as is the case with the human race. When slaves are devoured by a colony of ants, regular army of invasion is formed, and skirmishers and scouts are sent on ahead to discover a nest of black ants.

This having been found, the warrior-ants—warriors quite different from the ordinary workers, with powerful jaws—set out to invade their neighbor's territory and carry away the eggs and pupae to their own nests. A fierce battle ensues, but the invading ants are always victorious.

On returning to their own colony the young of their defeated foe are taken into their nests and carefully treated until they arrive at maturity, when they become the willing bondsmen of the conquerors of their parents, doing all the hardest work of the community, even to the length of feeding their captors. This having been found, the warrior-ants—warriors quite different from the ordinary workers, with powerful jaws—set out to invade their neighbor's territory and carry away the eggs and pupae to their own nests. A fierce battle ensues, but the invading ants are always victorious.

A fierce battle ensues, but the invading ants are always victorious.

"I am clearly of opinion"—Now, it so happened that I sat in the law library beside the silver-haired silken Nestor of the Irish bar, a leader of unfathomable astuteness. This elder changed to glance over my shoulder as I wrote.

"I remember once in the early glory of my wig and gown I got a case for an opinion. The solicitor thought it a very simple case, or he would not have sent it to me. I thought so too. With the touching confidence of the neophyte I took my pen and began:

"I don't quite understand you, sir,"

replied the admiral. "I am waiting for the captain of the —"

Instantly the duke took the hint, called for a boat and made posthaste for his own ship. He alone among the captains of the fleet had turned up in mutiny, forgetting or not knowing that the dinner was official. On his return to the flagship in the quickest time on record and in full uniform the gallant but inflexible admiral was still pacing the deck, and deprecating his royal highness' profuse apologies conducted him to dinner. I believe, concludes my correspondent, the admiral was Sir Michael Culme Seymour.—M. A. P.

**Toosey Confident.**

Mr. Bodkin, Q. C., tells the following anecdote of the late Mr. Francis Macdonagh, Q. C., who was for upward of 40 years the recognized leader of the Irish bar:

"I remember once in the early glory of my wig and gown I got a case for an opinion. The solicitor thought it a very simple case, or he would not have sent it to me. I thought so too. With the touching confidence of the neophyte I took my pen and began:

"I am clearly of opinion"—Now, it so happened that I sat in the law library beside the silver-haired silken Nestor of the Irish bar, a leader of unfathomable astuteness. This elder changed to glance over my shoulder as I wrote.

FRIDAY ..... MAY 23, 1902

## TO CORRESPONDENTS.

The republicans found the treasury in a democratic condition—that is, a most deplorable condition. The free-trade Wilson-Gorman law had created a yearly deficit and President Cleveland had sold bonds four different times amounting altogether to \$2,600,000,000. To show the revenue under the Wilson-Gorman law and the Dingley law the following table has been prepared:

Year ending	Customs receipts	Total receipts
1889	\$10,211,758	\$10,993,159
1890	170,561,159	347,719,965
AVERAGE	240,221,400	329,279,257
1891	240,578,000	356,381,485
1892	233,164,871	567,240,581
1893	238,491,759	585,789,067
1894	252,000,000	550,000,000
Average	\$205,872,941	\$504,854,975

\* Estimated from ten months.

The above average of customs duties under the Dingley law would be much larger but for the small amount of the year ending June 30, 1898, the first year of the law. It must be remembered that during the few months preceding its enactment, enormous quantities of foreign goods were imported to anticipate the higher duties. But the average for the last three years is over \$240,000,000 or \$80,000,000 more than the average of the Wilson-Gorman law.

Although customs duties do not regulate our internal revenue, yet the latter is affected in a great measure by a wise tariff law. Protection makes prosperity. It gives employment and high wages and consequently increases the purchasing power and consumption of the people, and the greater the consumption of certain luxuries the greater the internal revenue. Twice have the war taxes been repealed, \$70,000,000 or more altogether, and yet our revenue is sufficient for the expenses of the Government, although expenses have been largely augmented by the results of the war and normal increases in every department. We have already paid the Spanish war debt, we are reducing our national debt every month, and we have refunded a large part of our interest bearing debt into 2 per cents.

Uncle Sam is the only one on earth who can borrow money at 2 per cent and the bonds bear a premium at that.

In other words, the Dingley law as a revenue measure has proved to be the most successful of all our protective tariffs, and as compared or contrasted with the law of 1894 and previous free-trade laws it is simply a case of plus or minus—surplus or deficit.—American Economist.

THE Cuban nation was fairly launched as a free and independent power last Tuesday. The promise of the United States to withdraw its authority and retire from the island as soon as the native government was established, has been redeemed. The war with Spain was waged to free Cuba, not to substitute the stars and stripes for the flag of Spain. It was freely predicted by those hostile to the administration that our troops would never be withdrawn; that the American flag was hoisted over Cuba to stay; but all these predictions against the honor of this government have been falsified by the course of events. We have accomplished all that we started out to accomplish for the oppressed island people. Their future weal rests with themselves. We have no sympathy with that element in the United States that argues because we have done so much for Cuba, we are in duty bound to do more; that we ought to insure the commercial prosperity of the Cubans, even to the extent of injuring some of our home industries. We are not sanguine of the stability or prosperity of Cuba under the Cuban flag. It remains to be seen whether they are fitted for self-government; whether they will be more contented and prosperous under laws of their own making than under the yoke of a foreign power. The outcome of that problem will be watched with interest.

THE McKenzie forces were routed at the municipal election in San Jose last Monday. The ticket put forward by the good government league of San Jose, against the machine Republicans' ticket was elected by an average of over 200 majority. The Garden City has for many years been a stronghold of bossism. Rea held sway for a long time, running things to suit his own sweet will, and doling out the crumbs of office to his henchmen. One thing, however, could always be said in favor of Rea. He was true to his friends and his promises. If he agreed to do a certain thing, he could be depended upon to do it, if it was within his power; and he rarely if ever promised anything beyond his power to accomplish. Because of this trait—a rare one among politicians—he maintained his position as political boss for so many years. He installed McKenzie into the mysteries of political domination. The pupil became more skillful in the science than his tutor, and managed to do his instructor. Rea thereupon joined the good government crowd—which had been fighting him in the years of his ascendancy—to dethrone the new dictator. This they have managed to do. Whether the result will amount to a purification of the political atmosphere of the Garden City is a conundrum. It may simply

mean a change of bosses. The truth is the republican party can get along much better without bosses of either the Rea or McKenzie stripe. Republicans will tolerate leaders. They must have leaders in national, state and county politics. But when a leader—that is one who has been selected by his fellow-republicans to set the machinery of the party in motion, to simply carry out the will of the majority—assumes the role of dictator, he thereby raises the banner of bossism, and invades his downfall. Republicans will submit to honest, intelligent leadership; they will not long submit to them.

## WHAT A DIFFERENCE.

We look to the friends of the Ledger to keep us posted concerning events of public interest happening in any part of the country. Our regular column of news is given in writing material and stamps for this purpose. Births, deaths, marriages, accidents, amusements, mining and other industrial progress, social topics, new buildings, etc., etc., are always accepted. Give details of important items. Do not be afraid to write. Avoid personalities. Tell us what you know about visitors between towns in the country need not be mentioned, but visits from or to places beyond the country may be recorded.

THE VAST UNKNOWNABLE.

Notwithstanding the ever extending area of human knowledge, it is as true now as it was in the days of Newton, and, indeed, as it has been from time immemorial, that the great ocean of truth lies undiscovered.

The gifted men, engaged in scientific research, are like children playing on the shores of that unfathomable sea, with the unknown and the unknowable always confronting them. It is more probable that it will ever be thus. Truth is infinite. It is not possible for finite beings to explore it in all its breadth and depths. Man knows a great deal; the area of his knowledge is widening every day. The ten year old child knows more today than the profoundest philosopher of ancient times. Not that the child of nowadays has a greater mental capacity than the wise men of olden times; but simply because the living of today occupy the plane of advantage in having gained the experience of all past ages. We hear occasionally of lost arts. In some particulars the ancients excelled the people of today. Methods known and practiced by them are unknown to us. But these instances are rare. As a rule, knowledge once acquired is never again allowed to lapse into oblivion. But the world is apparently no nearer the limit of discovery than it was when the race was in its infancy.

THE Cuban nation was fairly launched as a free and independent power last Tuesday. The promise of the United States to withdraw its authority and retire from the island as soon as the native government was established, has been redeemed. The war with Spain was waged to free Cuba, not to substitute the stars and stripes for the flag of Spain. It was freely predicted by those hostile to the administration that our troops would never be withdrawn; that the American flag was hoisted over Cuba to stay; but all these predictions against the honor of this government have been falsified by the course of events. We have accomplished all that we started out to accomplish for the oppressed island people. Their future weal rests with themselves. We have no sympathy with that element in the United States that argues because we have done so much for Cuba, we are in duty bound to do more; that we ought to insure the commercial prosperity of the Cubans, even to the extent of injuring some of our home industries. We are not sanguine of the stability or prosperity of Cuba under the Cuban flag. It remains to be seen whether they are fitted for self-government; whether they will be more contented and prosperous under laws of their own making than under the yoke of a foreign power. The outcome of that problem will be watched with interest.

In other words, the Dingley law as a revenue measure has proved to be the most successful of all our protective tariffs, and as compared or contrasted with the law of 1894 and previous free-trade laws it is simply a case of plus or minus—surplus or deficit.—American Economist.

THE Hon. E. B. Edson is being brought out as an available republican candidate for governor. The feeling is growing stronger, that the interests of the party demand that a candidate be selected who will rally, rather than intensify, the bitterness that has been, and is still being manifested by a portion of the press, which hostility is no doubt backed by sufficient voting strength that the party can hardly afford to despise. The result of the San Jose fight against the machine will be felt upon state politics. Edson has made a creditable record as a state officer. He comes from the north, a section of the state that has not been honored with the gubernatorial office for thirty years. The Gridley Patriot is strongly urging his candidacy.

THE Standard Electric Company, or rather a new company affiliated with that organization, is about to inaugurate another gigantic scheme for the transmission of electric power. The works will be located on the Stanislaus river. The works are to have twice the capacity of the Amador plant, which will mean over 30,000 horse power.

"Jesse Mooree" whisky has been the Kentucky standard with which all others have been compared since 1851. It is the best.

Pioneer Flour is the "Lily of the Valley," the "Pearl of Perfection."

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and the surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitutional and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75¢.

Hall's Family Pills are the best.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. ## NEWS OF THE PAST WEEK

## Short News Items of Local Interest.

## The Sunday Closing Movement Goes Into Effect—Band Concert Next Sunday Evening.

The Doctors are coming.  
For a nice chicken dinner go to the Louvre restaurant.

PIONEER FLOUR always has been and still is the best.

"Nabisco," the new cake, try them at Caminetti's Mkt.

Go to the Superior candy factory for fine hot chicken tamales.

Cademartori's will open their ice cream parlors to-morrow.

Peep at our new oxfords for men, they are the latest, in tan and black. Jackson Shoe Store.

If you are ailing, do not fail to see the doctors when they come. See advertisement in another column.

Mrs. W. Chamberlain and her class of pupils will give an entertainment in the Pavilion at lone on June 13.

M. E. church services May 25. Morning subject, "Faith"; evening subject, "Buy the truth."

C. W. Schacht, Dentist, Webb building. Hours—9 to 12 a. m.; 1 to 5 p. m. Saturdays 9 to 12 a. m.; 1 to 4 p. m.

Mr. and Mrs. F. Burgin returned Wednesday evening from Sacramento, whither they went to attend the street fair.

The summer stock of dry goods, clothing and hats, are to be sold below factory prices. Call for bargains at the White House.

Dr. A. M. Gall was able to be out yesterday for the first time in a week. He is improving steadily, although still very weak.

Great reduction of tan oxfords. Our \$1.50, \$2.00 and \$2.50 ties reduced to 50c, 75c and \$1.00 per pair. Call and see them. Jackson Shoe Store.

W. A. Kessler expects to leave next Tuesday for Thunder Mountain, Idaho, the new mining camp which has been attracting so much attention of late.

If you want to get on the good side of your best girl take her to Cademartori's and treat her to some of their delicious ice cream.

Miss Lizzie Gordon of Ione, is visiting in Jackson, the guest of her uncle, Geo. A. Gordon. She is taking lessons in music from Mrs. W. Chamberlain.

J. Mortimer, the decorative painter, is nursing a lame leg, the result of an accident which happened to him in Amador City on Tuesday of last week.

3000 samples on display; suits to order from \$7.50 up. Call and see our new coupons on a \$40 tailor made suit given away to the lucky winner at the White House.

Mrs. T. Lemire and Mrs. Lillie Froom left early this week for San Francisco, as delegates from Oro Fino Circle to the grand lodge, which convened in that city on the 21st.

Give us daily some good bread. Pioneer Flour makes the best.

A furious windstorm blew all day Sunday. The wind was strong enough in places to level trees, and scatter foliage and shrubbery in all directions. It did no particular damage, however, to the fruit or grain crops.

Dr. A. M. Gall has been suffering for the past week with an attack of tonsilitis. He has been confined to the house, under the care of Dr. Endicott, with a trained nurse attending him. His physician says he is getting along nicely, and will be out in a day or two.

Miss Bertha Mason entered upon her duties as teacher in the Jackson school last Monday, taking charge of the class formerly taught by Miss Thirza Faull, who resigned early in the month. The school will close the term about June 20, thereby maintaining school for 10 months.

Ernest Weyand, a prominent attorney of Colusa county, was in Jackson Monday, on business connected with the O'Rourke estate. Mr. Weyand has been elected district attorney of Colusa county twice, and is now considered as a probable candidate for the republican ticket for superior judge.

Jack Griesbach, who has been in the hospital for years, has arranged to leave the county institution next Monday, and take quarters with Andy Kessler over Angove's saloon. He will wait on Kessler, after young Kessler departs for Idaho next Tuesday.

The new power plant at Electra is running smoothly, on a small scale. Power is being supplied thereto from all consumers in Amador and Calaveras counties, but not beyond. The company, however, as far as the local plant is concerned, is prepared to send the current to outside places at any time.

The seven year old son of Andrew Perovich was taken to Byron Springs last Saturday for treatment for rheumatism. He was stricken with scarlet fever some time back, and the attack of rheumatism is believed to be the result of the fever. His father has been at the springs for three weeks, and improving in health.

Ernest Spagnoli, W. Tuson, and Gilbert Voorhees, returned home Wednesday evening from St. Matthew's College, San Mateo, where they have been attending school. Ernest Spagnoli was awarded a silver medal for the highest standing in writing. He obtained 100 credits in this study. It is usual at the closing exercises of each term to present a medal as a testimonial of preeminent standing in each study, and young Spagnoli captured the honor in the department of writing. He also acquitted himself well in other branches, as did the other pupils from Jackson, but he was the only one of the Amador boys that received a medal. The next term commences in September.

Nothing will please an invalid as well as a package of those fancy cakes from Caminetti's Mkt.

An Austrian miner named Natalie Obilovich was killed in the Stickler mine at Angels on Tuesday last. He was 24 years of age, and a single man. He was a member of the order of Druids. The remains were brought to Jackson Wednesday, and the interment took place on Thursday, deceased being a member of the Greek church, in which cemetery the body was buried, the Rev. S. Dabovich officiating.

H. S. Hudson, U. S. Internal revenue agent, arrived in Jackson Thursday morning, and inspected the premises of all retail liquor dealers and others liable to special taxes, to see that the revenue laws were being complied with. Mr. Hudson is a general deputy, his jurisdiction reaching beyond the limits of this revenue district. So far as we have learned he found nothing out of the ordinary run. He will visit other towns in the country on the same business.

J. F. Parks, superintendent of the Kennedy, is making a tour of mining regions in Montana and other mining states, for the purpose, it is reported, of looking up the most modern hoisting and milling equipments, and thereby secure information which may be of value in the new hoist and mill to be erected at the Kennedy. Improvements are constantly being made in such works, and it is proposed that the new Kennedy plant shall be up-to-date as far as practicable.

Joseph Enos died in the county hospital on Tuesday last. He was one of the oldest pioneers of Amador county. He was in California in 1847, and settled in the neighborhood of Drytown in 1849. He lived in that section for many years. For the past ten years he has been a resident of the county hospital. He was subject to fits, which slowly undermined his strength, and entailed constant watching on the part of the management. He was born in Portugal, and aged about 82 years at the time of his death.

Frank Blake, the boss of the faking gang that was jailed some months ago, was liberated from the county jail Thursday of last week. His brother fakirs—one playing the sore foot game and the other imitating a dislocated hip—were waiting for him just beyond the Zeila mine. The trio, as soon as they joined forces, made a straight shoot to get out of the county. They were warned that if they were caught playing their fake schemes in this neighborhood again, they would be given a long term of imprisonment.

Last Sunday the Sunday closing movement went into effect in Jackson. All the stores and both butcher shops were closed all day. As far as the general stores are concerned, the closing is no inconvenience, and receives the unanimous support of the community. With the butcher shops, however, it is somewhat different. In the heat of summer it will be found rather difficult to keep meat from Saturday until Monday outside of the county seat on admission day. The Native Sons have taken the initiative in the movement, and have appointed a committee to canvass the town for the purpose of ascertaining the sentiment of the business community on the subject, and report to the next meeting of the parlor. It is a foregone conclusion that the business people will be in favor of it. It is hoped that all benevolent societies will co-operate, and work in unison to make the proposed celebration a success. The proposition has not taken any definite shape yet, but it may be stated that if it is undertaken along the lines proposed, it would certainly result in one of the largest and most imposing celebrations ever witnessed in Amador county.

The Ray Martyn vaudeville company gave a performance in Love's hall Monday evening to a small and unenthusiastic audience. The company has been playing in hard luck lately. The manager, Brophy, is in the clutches of the law at Sonora. The company got stranded in Stent, and Brophy traveled to Stockton with a horse and buggy belonging to Lyon's livery stable, and arrested in Stockton and taken to Sonora. With the manager at the head of the outfit, the show was denounced as a bum affair, and it has not improved with decapitation.

Horace Cramer, the district manager of the New England Mutual Life Insurance Company, who has made Jackson his headquarters for some time, will move to Stockton in a few days. He will make that city his headquarters in the future. This stop is rendered necessary on account of the addition of Stanislaus and Tuolumne counties to the district under his control, which heretofore took in Amador, El Dorado and Calaveras. He will hereafter, however, make frequent visits to Jackson and other portions of the county in the interest of the company.

It is reported that the promoters of the proposed new bank in Jackson offered Chris Marelia \$10,000 for the brick block on the corner of Main and Court streets, which offer was refused. This does not bear out the conclusion that property values are on the decline in town. The property was bought 15 years ago for four thousand dollars, and probably as much more has been expended upon it since. On the Main business block values are well sustained. On other streets, however, prices do not rule anywhere near as high as three or four years ago.

Jackson hopefuls had a gala time last Sunday. There were 25 gallons of ice cream left over from the picnic last Saturday. What to do with this surplus was the question that troubled the managers. They were unable to sell it, so they decided to give it away, and so notified the people. And the boys were not long in getting away with it. They marched up to Love's hall, where it was kept, and filled lard buckets with the delicacy, and had a fill-up with ice cream that they have not had for years, and that too notwithstanding a chilling north wind that was prevailing.

Vic Ferrara, whose back was severely injured by the fall of a derrick pole at Bear river camp, while in the employ of the Standard Electric Company, was removed to San Francisco on Thursday of last week. He was brought from Bear river to John Freguin's in Jackson, and was under the care of Dr. Gall. He was paralysed below the waist. The timber struck him in such a manner as to dislocate the back bone. The Standard Electric Company have paid all expenses entailed by the accident, and concluded to send him to San Francisco to be attended to there. There has been no material change in his condition since the accident. It is probable that if he survives, he will be a cripple for life.

The Standard Electric Company have paid all expenses entailed by the accident, and concluded to send him to San Francisco to be attended to there. There has been no material change in his condition since the accident. It is probable that if he survives, he will be a cripple for life.

The schools are rapidly closing for the term. Superintendent Gordon has been notified of the closing of the following named schools on the dates mentioned: May 9—Enterprise, Clinton, Amador City, Mountain Springs, Willow Springs, Middle Bar, Spring Valley, Forest Home, and Union. May 16—Stone Creek, Jackson Valley, Pine Grove and Lancha Plana. April 25—Julian and Williams. The following schools will close today: Ione, Mount Echo, and Milligan.
